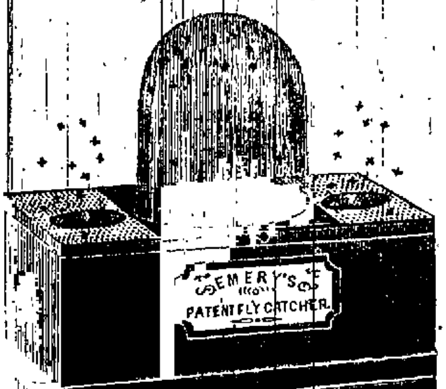
FLIES,---FLIES.



EMERY'S
Great American Fly Catcher.
Patented May 1, 1866, by Jas. Emery,
Manufactured and sold by
SEAVEY & CO.,
Nos. 83 and 85, Blackstone Street, Boston.
THIS is the greatest invention of the age for destroying that great pest, the House Fly, which is so annoying to every household and destructive to goods displayed in show windows. Hotel and Saloon Tables should be ornamented with them—thereby doing away with that unclean appearance too often observed.
There has been heretofore objections raised against the use of Fly Paper on account of its unclean appearance, together with the trouble it occasions by the dead flies dropping about into every thing. Now by this truly elegant invention, these great objections are entirely done away with. The flies are all collected within the Catcher, giving a neat and wholesome appearance to the premises where used.
In stores where goods are exhibited and exposed to the damaging influence of the fly, this invention cannot be over estimated.
THE SICK ROOM
Is rendered more comfortable, and the patient requires less attendance. The infant can take his nap in peace.
Mothers, no nursery should be without its Fly Catcher.
Watch Makers, Engravers, Artists, and all other persons engaged in delicate employment, will find them an indispensable article for their rooms—another great consideration is its cheapness and durability—for 50 or 75 cents, according to style, you have a Fly Destroyer that will last an age.
TRY ONE AND YOU WILL BE SATISFIED.
The Catcher's have been recently improved by adding a perforated bottom and lower entrance.—The Catchers are warranted to catch a host of flies, or no sale.
Arrangements will soon be made for their sale in all cities and towns in the country.
Orders sent to SEAVEY & CO., will be answered promptly.
Canvassers will find this the best selling article for the next four months, ever invented.

Despatches to the Evening Times.

NEW YORK, Aug 4.

Twenty-four cases and two deaths by cholera were reported in this city yesterday, and since the 29th of July, according to the official report, 103 persons died in this city of the disease.

The report from Brooklyn gives fifteen cases and six deaths from cholera yesterday.

The disease is abating on Governor's Island, and on David's and Hart's Islands matters appear more favorable.

The Post Surgeon at Atlanta, Ga., informs the health officer that parties there are shipping infected rags north.

The Tribune's Ottawa, Canada, despatch says:

The republican party has been defeated in their efforts to obtain a democratic form of legislature for Lower Canada by a vote of 69 to 31.

Upper Canada will have a legislature of one elective chamber, which in form was sought by the Republicans of Lower Canada.

The Tribune's New Orleans despatch of the 2d, says:

The military commission appointed to investigate the massacre of Union men, took Dr. Dostie's deposition to-day. Hon. John Henderson and Rev. Mr. Horton are too weak to give evidence.

Rev. Mr. Jackson, Hon. Oscar Paynot, Hon. E. Dupatig and Hon. Geo. Howe, are among the dangerously wounded not heretofore reported.

Gov. Hahn and Hon. S. S. Fish are badly wounded, but will recover. I saw them to-day in the hospital.

RUTLAND, Aug. 3.

An accident occurred on the Rutland and Washington Railroad, near Granville, N. Y., to-day to the New York Express train, which left here at 2:40 p. m., by which two passenger cars were thrown from the track, one filled with passengers rolling down a high embankment, and injuring six or eight passengers, some seriously. The conductor and brakeman were also somewhat injured, though not seriously. The wreck has been removed, and the road is now clear.

EASTPORT, Me., Aug. 4.

The brig Citizen of Searsport went ashore last night at Little River. The Revenue Cutter Ashuelot has gone to her assistance.

FORTRESS MONROE, Aug. 2.

The steamer Star of the South with 450 recruits for the 4th and 6th U. S. cavalry regiments stationed at Austin and San Antonia, Texas, sailed last evening for Galveston.

Captain T. G. Whytall, formerly connected with the Freedmen's Bureau, has been appointed quartermaster here and to-day assumed the duties of his office.

ALBANY, Aug. 4.

PHILADELPHIA, Aug. 4.

Old Moyamensing Hall on Christian St., used by the government during the war as a hospital, and recently taken possession of by the Board of Health for cholera purposes, was set on fire this morning. The adjacent wooden structures as well as the lower portion of the hall were destroyed. An indignation meeting of the residents in this vicinity was held yesterday afternoon.

LOUISVILLE, Ky., Aug. 4.

Capt. John Shallicross, a veteran steamboat man, died yesterday.

At a large Duval meeting last night three cheers were heartily given for Gen. Lee, after an extravagant eulogium on that officer by one of the speakers. Both parties exhibited great earnestness in support of their respective candidate for Clerk of the Court of Appeals and each will turn out this evening in full force.

NEW YORK, Aug. 4.

The Commercial says—

The motion in the stock market continues. There is no disposition among large operators to sell and realize profits and for the moment this tendency prevails over the inclination to buy.

The Railroad list is ¼ a ½ per cent. lower. There is little doubt, however, that the break is only temporary and higher prices will ultimately prevail. It was reported late yesterday that a firm in Exchange place had received a London despatch reporting the conclusion of peace. Reduction of the bank of England rate to eight per cent. Advance of middling uplands to 15d and 5-20s 69.

GENERAL ITEMS.

—Fifteen hundred and sixteen arrests were made by the Boston police during the month of July.

—Among the names signed to a call for a Johnson convention, in Michigan, appears that of William Shakspeare, of Kalamazoo.

—The republicans in Shelby County, Ill., are in favor of Andrew Johnson "as he was" and Congress "as it is."

—Rev. Isaac S. Kalloch, editor of the Ottawa (Kansas) Journal, presents his claims to the next Legislature of that State for the office of U. S. Senator.

—The Philadelphia Bulletin thinks that after the Doolittle Convention adjourns it will probably be known as the Didlittle Convention.

—Another movement is making to complete the National Washington Monument, and contributions are about to be solicited.

—How nice the cable will be to intercept scamps who sail for Europe to escape punishment!

WASHINGTON, Aug. 3, 1866.

Gen. Sheridan sent a telegraphic despatch to Gen. Grant to-day in which he says that the late riot in New Orleans was not the effect of a hastily congregated mob, but the result of a preconcerted and pre-arranged plan of the rebels to slaughter the leading Union men of the State, and that there is evidence that the plot was concocted weeks ago. The despatches transmitted from New Orleans through the medium of the Associated Press are glaringly false, and are dictated by the rebel State officials themselves. General Sheridan also expresses the opinion that the riot is but the beginning of the rebel scheme to rid Louisiana of Union men.

Although Gen. Sheridan has returned to his headquarters at New Orleans, he is obliged to submit to the indignity of receiving orders from the Attorney General of Louisiana, a man who, less than two years ago, was serving in the rebel army.

A number of prominent Unionists just arrived here from New Orleans give appalling accounts of the state of affairs in that city. Two instances will show the condition of society in Louisiana, since the inauguration of the present policy of reconstruction. Two men, one of them a Northern Unionist and the other a rebel, happened to get into a political discussion. Upon separating the rebel told the Unionist that he would kill him the next time they met. In a short time after, this ruffian met the Union man in a saloon, when he immediately fired at him across the table, and that he and his friends stabbed their victim until seventeen bullet and knife wounds were inflicted. A coroner's jury brought in a verdict of "Killed in self-defense." The murdered Dr. O. F. Dostie not long ago received notice that one of his friends, a Union man living up the river, had been shot and was not expected to live. Dr. Dostie went to see him, but he died soon after his arrival. No notice was taken of this murder. A gentleman who formerly served on Gen. Butler's staff, and who has just returned from New Orleans, says that not one in six of the murderers of Union men or freedmen are ever arrested.—[Boston Advertiser.

The members of the Louisiana Convention, we learn from our special despatches from New Orleans, had no suspicion that they would be attacked by a mob, but expected to be arrested, and that then the legality of the Convention would be judicially tried.—The same despatch which brings this sad comment upon the story that the Union members endeavored to provoke a revolution, informs us that Attorney General Herron has declared that the meeting called on August 13th, to elect delegates to the Southern Loyalists' Convention, shall not be held.

What General Chamberlain Says.

All must unite in *demanding security for the future.* We must have guaranties good and sufficient, against any future attempt to destroy this Government whether in the exercise of a pretended right by open war or BY MORE ARTFUL AND INSIDIOUS ASSAULTS against the principles on which this Nation was founded. These are points we cannot yield without danger and dishonor, and WHEN THE SOUTHERN STATES SHALL HAVE COMPLIED WITH THOSE CONDITIONS IN GOOD FAITH, they will be in a condition to ask association and fellowship with the loyal commonwealths of the country which they deserted with such violence and scorn. UNTIL THAT TIME, in my judgment, it is wise to hold them in strict probation.

* * * * *

"We cannot go back to gather up the fragments of the Union as it was; we must now recognize the nation as it is, and make the Constitution what it should be."

President Johnson and the New Orleans Riot.

The following article upon the New Orleans massacre we copy from the New York Tribune. It seems that the power of the government is to be used in crushing out the Union sentiment of the South, and upholding the men who have been fighting for the past four years to tear down the American flag and break up our free government, establishing one instead with slavery for its corner-stone.

No doubt all the Southern States will be fully represented in the Philadelphia Convention by men ready to endorse "my policy" or any other policy which tends to throw the power again into the hands of the rebels of the South and their allies the copperheads of the North.

The New York Post, Tribune and Sun, Boston Advertiser, and all the leading Union papers of the country, denounce President Johnson for his course, while the New York News, World, Boston Post, Bangor Times, Bangor Democrat, Eastern Argus, &c., &c., are intensely satisfied with it.

We copy from the Tribune:

We are beginning to understand more fully the recent massacre in New Orleans, and the causes preceding it. The more evidence we accumulate, the more we are convinced of the justice of the judgment that the President must be held directly responsible for all that has been done in New Orleans. He engendered the spirit which broke forth in riot, murdered loyalists, and finally raised the Confederate flag. "About 40 persons have been killed, and a large number wounded, nearly all being friendly to the Convention!" This is the result of the President's policy in Louisiana, and we regard it as a fitting sequel to the result of that policy in Tennessee, where the military authorities are prevented from punishing the authors of the massacre in Memphis.—Memphis, unavenged and unpunished, is fitly followed by New Orleans.

The President began his work of interference July 21st, when he asked Gov. Wells to inform him under and by what authority the Convention had been called, and also under what authority it assumed to represent the State of Louisiana. This was before the massacre. Gov. Wells was Governor of Louisiana, and, according to the President's frequently-proclaimed theories, as much a sovereign in his way as the President himself. The menace to Gov. Wells was as much a usurpation as though the President were to address a letter to Governor Fenton to know under and by what authority he summoned the State Legislature. Gov. Wells disobeyed the President and issued his proclamation for elections to be held to choose delegates to the Convention to fill vacancies—all that he could do by the letter of the law. Thereupon, July 28th, the Attorney-General and the Lieutenant Governor—unwilling to obey the law or to permit the matter to go to the courts to test its constitutionality—again telegraphed the President, stating that a riot was feared; that the Governor was guilty of the horrible crime of "being in league with the Republicans"; that it was intended to indict the members by grand jury; and asking whether the President would interfere with the indictment. To which, July 28th, the President replied that "the military will be expected to sustain and not obstruct or interfere with the proceedings of the courts"—in other words, "Go ahead, gentlemen; indict or what you please; no soldiers shall molest you". This was on Saturday. Mayor Monroe proclaimed his purpose to suppress the Convention. He thereupon summoned policemen, be it known, who were selected for their valor in rebel armies. This police force and the mob acted together with bloody harmony, and did the work of suppression thoroughly.

When the Convention assembled the President issued his order to Mr. Herron, a member of Gov. Wells' Cabinet. In the first place, that order deposed Gov. Wells for not obeying the President. In the second place, it placed Gen. Sheridan under the control of a State officer. In the third place, its language was not that of a calm, executive officer, performing a solemn ministerial duty, but of a violent, angry man, speaking to angry people. "Usurpation will not be tolerated!"—"the people must be first consulted"—all "illegal or unlawful assemblies must be suppressed!" Let it be remembered that these words were written to a community of rebels, to men who were seething with anger and hatred, and who cherished no more darling idea than being permitted to gain, in the streets of New Orleans, that revenge which the valor of Sherman and Sheridan prevented them from gaining in the field. They were in a safe majority. They were armed. They were commanded by the Mayor and sustained by the President of the United States. The negroes and loyalists were unarmed, and the soldiers of the nation were compelled to ground their muskets and look on at the massacre. The work of massacre was easy indeed.

It is impossible to resist the logic of this whole proceeding. It was commenced July 2d, by menacing Gov. Wells, a Governor of a "sovereign State"; it was continued by deposing him; and to make the work surer, by placing the army at the control of a rebel officer. If the President had sent a manly despatch to Gen. Baird—to preserve peace at all hazards and protect every loyal man, leaving the Convention to be dealt with by the courts and the people to do what was best when peace came, but still to make peace—the country would have felt that the affair was merely a riot, and suppressed as all riots should be. But when the country sees in New Orleans what was seen in Memphis what was seen in Memphis and Alexandria, direct personal sympathy between the President and rioters, can it release the President from a most fearful responsibility? Do we not see this man—while clamoring against usurpation—performing himself the very highest usurpation when it suits his purpose. He deprecates interfering with States and removes a State Governor. He desires reconstruction, and yet when Tennessee wished to come into the Union by the only open door, he stood in her way.—We very much fear that all these protestations of respect for principle and desire for peace and willingness to trust the people are the mere words of a politician—without sincerity and spoken to deceive. Just as when he called himself the Moses of the negro, and declared treason was odious, and gave interviews to radicals like Kelley and Stearns which made them trust him, he spoke as a politician for purposes of deception. His acts are the only speeches we want. They show a stern, unjust purpose. Andrew Johnson desires to reconstruct this Union in his own way—and to do it in spite of every opposition. He means that, if in his power, the South shall again rule the councils of this country. He cannot return the negro to slavery, but it is his will that the negro shall never leave it. And to do this he goes to his work with coarse, unscrupulous energy—with a courage and persistency which we respected when he assailed the the country's enemies, but which are now the sources of national grief and humiliation.

U. S. Naval Academy at Annapolis.

ANNAPOLIS, Md., July 30, 1866.

Editor Whig & Courier:

The annual examination of candidates for admission to the U. S. Naval Academy at Annapolis, commenced on the 20th, and will close on the 31st inst. The nomination of candidates is made upon the recommendation of the member or delegate from each Congressional District or Territory, where a vacancy exists.

Upon receiving his appointment from the Secretary of the Navy, the candidate is notified to present himself to the Superintendent of the Academy, and to go before the academic board for examination. First he presents himself to the Secretary, registers his name, age, &c. He is next sent before the Medical Board, where he undergoes a rigid scrutiny as to his physical condition, tendency to disease, &c. If found physically sound, well formed, of the requisite height, weight, strength of vision, and of robust constitution, he is so reported. He next goes before the Academic Board. Here he has a thorough examination in all the elementary English branches, reading, writing, spelling, arithmetic, geography and grammar.

In the first room or department, the examination is in writing from dictation, in geography, grammar and spelling. In the second room the examination is in arithmetic, from examples given, to be wrought out. In the third room a further examination in arithmetic. In the fourth room the examination is in reading, spelling, geography and grammar. If no failures or deficiencies are reported in either rooms or departments, the candidate is passed. If, on the contrary, some failures or imperfections are noted, there is still another room, the fifth, or "battery," as the boys term it, in which a review is had, and if the deficiencies are not fatal or marked, and there is a general mental activity and fitness, the candidate may pass. The boys like to avoid the "battery," for when sent to this room they know that some failure or imperfection has been noted against them.

Candidates for admission as midshipmen, must be between the ages of fourteen and eighteen years, and are required to be well fortified with testimonials of good moral character and standing.

The candidate from the Fourth District, Walter S. French of Bangor, fourteen years of age passed his examination, and was admitted without passing through the fifth room or "battery." This should be a source of just pride to himself, and is alike creditable to his teachers and the common school system of New England. The period of examination is one of intense interest and anxiety to the candidates.

Here are boys in attendance from most of the States and Territories—from Oregon, California, Arizona and Colorado—waiting to pass the ordeal. Some of them have been here for weeks, studying with special reference to the examination. The hopes of the boys rise and fall as the various candidates are accepted or rejected. Thus far, two-thirds of the candidates examined have been rejected. It is said that the examination before the present board is much more severe than usual. Officers from the naval station here, have been before the Secretary of the Navy to endeavor to obtain some modification in the strictures of the examination, so as not to excuse so many. Friends and official influence seem to be of no avail, but the candidate must stand on his merits, and pass the rigid test of a thorough examination.

One boy from Kentucky, well formed, physically and mentally very active, himself rejected, said to me, the eastern boys get in. Only one out of fourteen of us from Kentucky, has been admitted. This was a simple commentary on the educational systems of the different sections. Nature had done everything it could. But the one lacked that thorough drill in the elementary English branches, which is required in the primary schools of New England.

Others were present who were mentally very active and thoroughly qualified. But they were too frail. Early decay was marked upon the brow. The physical had been sacrificed to the mental, and they turned back in disappointment. There is a fearful responsibility resting upon parents and teachers. No child should be urged forward in his or her studies, at the sacrifice of health. No one can grow up to a life of usefulness and happiness without good health and constitution.

I yet learn of no candidate for the Academy, that has been rejected from Maine.

Very truly, VISITOR.

DECEPTION. Just now, copperhead papers are striving to show by bold assertion that certain prominent Republicans of the country are in favor of 'my policy'. The Washington Union says that Hon. R. D. Rice of Maine 'heartily endorses this policy'; there never was a baser falsehood. Mr. Rice is one of the truest men in Congress, and is entirely incapable of such a miserable blunder. The Machias Union copies the slander.—[Machias Republican.

The Republican has evidently forgotten that there are different qualities of Rice as well as different men of the same name.—Hon. R. D. Rice of Augusta, formerly Supreme Judge and now President of the Kennebec and Portland R. R., is a straight out Democrat, and has been through the war. Albeit he had an excellent reputation as a Judge, and is an able Railroad man, he has no reason to feel proud of his political history.

Hon. John H. Rice, on the contrary, has a political record of which he may well feel proud, and is not at all likely to fritter it away by entering into the Johnson movement.

The former has everything to gain by a political change, the latter has every thing to lose.

—The Washington Star, which evidently speaks by authority, alludes to the threats to put Vallandigham out of the Philadelphia Convention, and says that all who present themselves in good faith under the call of that Convention, will be admitted without regard to their antecedents. This is undoubtedly given on authority.

Irresponsible Counterfeiters.

One of the most serious annoyances which the proprietors of an article in unusual demand have to encounter is the piratical imitation of it by parties equally unscrupulous and irresponsible. If an individual of a firm with *means* engages in this nefarious business, the damages awarded by a court of justice for the offense are collectable, and it is some satisfaction to the party wronged that the wrongdoer is made to suffer; but in most cases the pirates are *men of straw*, who cannot respond in dollars to the law's award.

HOSTETTER'S STOMACH BITTERS being a *Standard Tonic*, marketable everywhere, and representing the value affixed to it as accurately as a National Bank bill represents the amount expressed on its face, has been extensively counterfeited and simulated. The proprietors have spent many thousand dollars in *hunting up* and *hunting down* irresponsible individuals and firms who have given their minds to this dirty work. These parties—some of them, at least—have a way of changing their base, though they never change their *business*. When an injunction is laid upon them in one part of the country they sometimes "vamose" to another and try the trick again. In some cases it is necessary to kill them two or three times over. Perhaps the best thing that can be done under these circumstances is to "*lay an injunction*" upon all who use the Bitters to buy only of dealers whom they can trust. In every city, town and village of the United States and British America this famous tonic, alterative and protective medicine may be procured of reliable men of business.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect with safety.

Is purely vegetable, without a particle of *opiate* or narcotic. Highly aromatic, very pleasant to the taste, mild, but sure in its effects, warms and strengthens the system, acts like a charm, affording almost immediate relief, and a taste of the article will satisfy the most incredulous of these facts. Sold by all dealers in medicine. Please send for circular. Try it. Prepared only by EDWARD SUTTON, Providence, R. I. DEMAS BARNES & CO., of New York, General Agents. For sale by B. F. KNOWLES'

Vegetable Hair Restorer!

AS A HAIR PREPARATION this stands without a rival—has proved itself by the thousands who have tested its virtues for the past three years,

THE ONLY RELIABLE RESTORER

Of Gray, Faded, or Diseased Hair, to its original color, condition and former beauty.

It is not a *Dye*, being a Vegetable Compound. and not injurious in its application; but is warranted to restore Gray, Faded or Diseased Hair to its original color in 20 days.

By its invigorating properties, promotes a luxuriant growth on Bald Heads, in all cases where such a result is possible; prevents the hair from falling off; eradicates dandruff, humors, and all other impurities from the scalp; and as a Restorer and Dressing combined, it has no equal.

The great and increasing sales of this preparation attest the high value in which it is held; and the fact that its reputation has been established solely upon its own merit and worth—the trial of a single bottle will convince the most skeptical of its virtues.

London, July 27th—a. m. The armistice between Prussia and Austria expires to-day. It will probably be renewed, but there is no intimation as yet of this having been done

We are expecting momentarily to receive news that the Atlantic Cable has been completed.

Government has announced its intention of prolonging the suspension of the habeas corpus act in Ireland.

Previous to the armistice the Italians had been very successful in the South Tyrol.

Liverpool, July 27. The following steamships have arrived:

The Tripoli on the 23d, Damascus on the 24th, Saxonia, City of London and Bremen on the 25th, and Pennsylvania to-day.

Notice has been issued that the Government has agreed with the Council of the Reform League to facilitate in every way their obtaining a speedy decision, either in Parliament or in a court of law, as to their right to hold public meetings in the Park, and that until the question has been decided no further meetings will be held, except one on the afternoon of the 30th, by agreement with the government.

This statement, however, is contradicted in a letter from Mr. Walpole, who states that no promise was made and that no permission had been given to hold meetings, but that the government merely promised to withdraw the police and military, on express stipulations that no attempt would be made to insist upon the supposed right to hold meetings until the legal question had been decided.

The Star, Telegraph and Advertiser represent the step taken by the Home Secretary as a compromise and a partial discomfiture of the government

The Times says that the armistice did not come a moment too soon to save Austria from a final catastrophe; yet one day more and the Italians would have found themselves in full possession of Southern Tyrol, and the Prussians masters of the passes of the Danube, would have threatened Vienna, on the east and west.

The combatants are now resting, irrespective of their positions, and there are well-grounded hopes that the truce may be prolonged into an armistice, and this again into a definite peace.

WASHINGTON, Aug 4.

The following has been received at the State Department from the Consulate General of the United States—

Havana, July 25, 1866.

Hon W. H. Seward, Secretary of State, Washington—

Sir—Referring to my despatch No. 217, I have to advise that only vessels from New York have thus far been subject to quarantine restrictions therein mentioned, but it will be applied to those from other ports of the United States where newspapers may report cholera to exist. I have not yet had an answer from the Captain General on the subject, but I am informed that the same was only referred to the Superior Board of Board of Health, by which the resolution of the Board for Havana was modified. The Captain General told me that the very strongest orders had come to him from Spain to adopt measures against the introduction of cholera into this island. The last vessel from New York admitted to free pratique was the Moro Castle which left that port the 4th inst. An English brig which sailed seven days before her and was 14 days on her passage was put into quarantine.—Steamers Daniel Webster and Eagle have been subjected to the same and have not been allowed to land their passengers nor cargoes while remaining in quarantine.—The bills of health now issued by the Board here contain the notification that there are some cases of yellow fever and small pox now prevalent. I make this known to the Mayors of Baltimore and New York by the steamer Cuba, which takes this to the first named port.

I have the honor to be sir, with great respect your ob't serv't,

THOMAS SAVAGE,
U. S. Consul General.

(Signed) CYRUS W. FIELD.

This morning the following answer was received:

London, Aug. 3.

The Admiralty approve of the Terrible affording assistance by accompanying the Medway to lay the St Lawrence cable. Be kind enough to make this known to Captain Commerell as the Admiralty decision for his guidance.

MYSTERIOUS AFFAIR—PROBABLE SUICIDE. Yesterday morning Mr. A T Chick, landlord of the National House, was found in a thicket, a few rods from the road, within a mile or two of Hudson, hung in the webbings of his harness. Mr Chick had been to Hudson on business, arriving there Saturday forenoon. He laid down before dinner, leaving his watch in the bed. After dinner he started for Kenduskeag, on the cross road, and that was the last known to have been seen of him until he was found dead.

His horse was hitched beside the road, and the length of time he remained there attracted the notice of a passer by, who drove him to Hudson. Search was made for Mr. Chick that night, but he was not found until Sunday morning

A Coroner's jury was empanelled who gave a verdict of suicide

Subsequently wounds were discovered, and an examination was made by Drs. Jones and Snell. They found wounds upon the back of the head and over the ear and several small wounds about the face and neck. They also found marks on each side of the neck similar to the indentations of fingers, and they incline to the belief that his death was caused by strangulation from the hands of a man. He was on his knees when found, and his neck simply laid in the loop of his webbings—no knot having been tied except where they passed over the limb—and the appearance of the skin indicated that he was put there after death.

It is supposed that he had a hundred dollars or more with him, but when found he had only a few dollars in his pockets.

Mr. Chick has been intemperate of late, has attempted suicide by hanging before, has frequently threatened suicide—and we believe that he came to his death by his own hands, and that the wounds were previously received or made that day by falling or by himself in some manner unknown

The matter will be thoroughly investigated and additional light may be thrown upon it.

He was about thirty-seven years of age, and leaves a wife, to whom he was lately married.

—The next session of the Penobscot Musical Association will be held in this city Sept. 25th to 28th, under charge of L. H. Southard, Esq., of Boston. Mrs. H. M. The Trustees have also engaged the Mendelssohn Quintette Club, Boston, whose tasteful performances were so well received last year,—and Miss Annie L. Cary (contralto) of Boston, who is a favorite here.—Negotiations are in progress for a tenor singer. The whole presenting, with our native talent, great attractions.

A gentleman informs us that a girl named Ella Furbish, of Webster, had a narrow escape from being accidentally shot, a few days since. A boy about fifteen years of age carelessly aimed a gun, supposed to be unloaded, at her head, and snapped it. Proving to be loaded, the gun was discharged; but fortunately the girl dodged just as the gun was discharged, and the charge just grazed her head, burning her neck slightly. It would seem as though the frequent accidents of this character, ought to put a stop to such criminal carelessness.—[Lewiston Journal.

RATHER HARD. Mr. J. D. Chandler, a well-known stable keeper in this place, let a horse and wagon to a Frenchman to go to Canada, a week or ten days ago, and finds that horse, wagon, harness and whip are now in the hands of revenue officers, for being used in smuggling liquors.—[Waterville Mail

ARREST. A horse thief calling his name William W. Worthen, and who says he lives in Lowell, Mass., was arrested in this city yesterday by Marshal Heald, for stealing a horse and carriage from a stable keeper in Lawrence last week. The City Marshal of that place had tracked the fellow to West Gorham. The fellow sold the carriage and harness at Falmouth, and left the horse in charge of Dr. Tapley. He acknowledged the theft and was taken back to Massachusetts to stand a trial.—[Portland Press.

BOWDOIN COLLEGE. A member of the Board of Trustees of Bowdoin College sends the Boston Journal the following definite statement of the action of the Board on the matter of a President for the institution:

"The Boards were in session till midnight Wednesday. Rev. Dr. Harris of Bangor Theological Seminary was unanimously elected President by the Board of Trustees. Dr. Harris withdrew his name, and so prevented the vote from going to the Overseers by whom his election would have been gladly confirmed. The duties so long discharged by Dr. Woods are committed to the Professors, and the whole matter of the Presidency is referred to Messrs. Fiske, Tenny, Boody, Benson, Adams and Pike, who are to report to the Boards at the meeting appointed Tuesday, Nov. 6."

ACCIDENT IN BETHEL. A sad accident occured at the steam shaw mill in Bethel last Monday, in moving some loaded cars. A Mr Upton stepped between two cars to shackle them, when for some unaccountable reason he stooped, so as to bring his head exactly between the bunters. His head was crushed, the injury being so severe that he died about one o'clock the same night, having lain without consciousness all the time. Mr Upton was much liked and respected by all who knew him, and work was entirely suspended at the mill on Tuesday.—[Portland Press.

—The old county jail in Carthage, Ill., is an object of great interest to all who visit that place. It was there that Joseph Smith, the Mormon leader, was killed in 1844.—The Republican of that place says the building is about to be sold.

THE MUTUAL
Life Insurance Co.,
OF NEW YORK.
Assets over $16,000,000!

TO meet the choice of such present or future members as may prefer to have the amount insured paid in instalments to their widows or heirs, rather than in one sum, this Company is prepared to insert in its policies a clause agreeing that, in lieu of the payment of the policy and profits in one sum, an equitable amount, to be determined by the Company, may be paid annually or semi-annually for any specified number of years (say from five to twenty-five years) if desired.

EXAMPLE.—Suppose a policy of $10,000, with additions amounting to $5000 more, should become payable by reason of the death of the person insured, the Company in lieu of the payment of $15 000 in one sum, would be able to give (assuming interest as realized in the past) an annuity for ten years of over $2000 per annum, or for twenty years an annuity of over $1300 per annum

This form of annuity will remove the anxiety which may exist in the minds of some policy-holders lest the future provision they have made for their families should be ineffectual or transitory in its duration, either through unsafe investments, unwise expenditure, or other uncertainties incidental to contingent trusts.

It is not only free from the ordinary dangers of investment, but its punctual and full payment is secured by the LARGE AND SOLID CASH RESOURCES and good faith of this institution, which thus, to a certain extent, becomes the GUARDIAN or TRUSTEE of the survivor. Hence the provision may be considered, humanly speaking, beyond any adverse contingency

All such deferred payments or annuities will share equitably in the profits or dividends of the Company.

This Company also issues SURVIVORSHIP ANNUITIES, which provide for survivors during the whole period of life, and DEFERRED ANNUITIES, by which individuals may provide for themselves in advanced age

An Incident of Ice Travel.

Not many years since I formed one of the little party garrisoning Burt's Blockhouse—a small isolated post on the Huron, near the entrance of Lake Superior. It was during the American war, and not only had the enemy several larger posts on the southern shore, but the woods were filled with thousands of hostile Indians, against whom despite our defences, we had oftimes hard work to hold our own.

Ten times during the past winter had they swarmed in yelling hordes around our palisades, and more than half as often attacked our blockhouse—when all other attempts failed, assailing the timbers of our stronghold with fire; and at how high a price they had been repulsed, the little mounds around its foot truly told.

Again winter was approaching, and we were short of men, short of amunition, and short of food; and though two by two, all but one of our friendly Indians had dropped down the lakes in canoes, to apprise the colony of our needs, no supplies had arrived, and we began greatly to fear for the fate of our messengers.

Everything that skill and experience could devise, had been effected. Our block-house had been strengthened, our palisade doubled, armed parties had hewn wood in the forest for our winter store, and the water of the lake had been brought by a covered way within our walls. Yet after all was done, our prospects for the long and rigorous winter of the North were most gloomy and disheartening, not only for ourselves but for the poor women and children who must share our hardships, and, if it came to the worst, our fate.

Such was our position when one day, a sloop bearing the British flag glided into our little bay. Some of our messengers had reached their destination, and the vessel had been sent in reply—not with supplies, but with orders that we should retire from the post the Government no longer thought worth its hazards.

The recall was as unwelcome as unexpected; we would rather have braved any danger than beat a retreat. But we had no choice; neither was there time for delay, for already the wild autumn winds were sweeping the forest bare of leaves, and the belated birds hurrying southward in clouds. Three days more saw us on board the sloop, gazing respectfully on the blackened walls of our deserted blockhouse, as the vessel slowly bore us off on our lake voyage of more than five hundred miles.

The day was soft and beautiful, as if the Indian summer had returned again, but in the morning winter seemed to have suddenly overtaken us. The wind from the frozen north, rushed by us in howling gusts, which seemed to fill the air with ice, as it swept over the lake, lashing its waters into wild foaming billows, which dashed and surged around and over our little vessel, freezing as they fell, until her deck was cased in sheets of slippery ice, her ropes and yards fringed with long rows of icicles, and her sails rigid glass, and shattered by the furious gales.

Four days the tempest continued, each colder and wilder than the last, and accompanied at intervals by furious snow storms from the far north. And with each day lower sank the hopes of the unfortunate passengers, who were crowded and cramped and almost suffocated between the vessel's battened hatches.

At length the fifth day came and we were still careering along with the same mad speed, and in utter ignorance whither, for the thick masses of snow were dashing and whirling around us in bewildering confusion. Suddenly the vessel struck, and the waves began to break more wildly over her. All on board believed their hour and hers alike had come, and each moment we thought to hear the fatal rush of waters.

Hand clasped hand in a parting grasp, and men sorrowfully drew near the dear ones they were unable to save. Ten minutes passed, and still the vessel floated less buoyantly, and the roar and rush of the hurrying waves were lessened. It was an interval of fearful suspense, lasting till the thinning snow revealed us floating in an almost landlocked bay, and showed that we had but struck upon a needle-point of sand in entering. Our last remaining Indian, who had accompanied us recognized the spot as one of the long range of bays and lights extending across the lower end of the lake, and at least two hundred miles distant from the nearest settlement, which was Ambertsburg.

None of us will forget the sight which followed. It was as if the gale, balked of its prey, had risen to frenzy, so furious and prolonged were the gusts which it swept, like a destroyer, through the woods, bending the lofty trees like rushes, and ever and anon dashing to the ground some forest giant with a crash, which reverberated through the surrounding hills in a thousand echoes. The cold, too, was intense. Even in the narrow cabins we could scarce endure its bitterness, and the watch and guard on deck were compelled to retreat before the blast which shot through them like icy arrows. Towards morning the storm passed, but when day broke we were scarcely surprised to find our sheltered nook a sheet of gleaming ice, too thick for us to push through.

We regarded this impediment as merely temporary, and busied ourselves in repairing the ravages of the storm and making ready to resume our voyage. But as day after day passed and the glittering barrier continued to thicken and increase, until it stretched out along the lake shore, a broad border of sparkling silver, the unwelcome truth gradually forced itself upon us, that our vessel was frozen up to meet the winter in that desolate region, and that a season of almost polar cold and unutterable misery and hardships were before the helpless crew and passengers.

No wonder we looked at each other in hopeless dismay at the prospect, nor that the feeling was deepened when we remembered the scanty stores in the vessel's hold, so insufficient for the wants of forty persons, so ill-suited to the needs of women and children, among whom were my own dear wife and child. True, the woods were full of game, but they were full of red-skins also, whose unslumbering vigilance scarce needed the sound of a shot to lead them to our retreat; and then what prodigies of valor could avail against the hundreds of besiegers they they could bring against us?

Many were our consultations over what could and should be done in such an exigence. At last they resolved themselves into the decision of lowering the sloop's mast to lessen the risk of discovery. Then employing all the spare spars and timber about the vessel, we barricaded her into a sort of floating tower, where the sailors and blockhouse garrison under the command of our brave old Captain Burt, might keep the foe at bay.

It was miserable work for soldiers, that keeping watch from behind a plank for dark forms among the trees. They were wretched, those stealthy visits to the shore, to set snares for the game, and collect wood for the scanty fire, in which alone we dared indulge, lest the smoke curling against the clear blue sky should reveal to a distance our whereabouts. After a time, too, sickness appeared among us, and more than one little child and brave soldier was carried silently to the land and laid there in hidden graves.

At length our position became intolerable; it was arranged that I as junior officer, should endeavor to reach the colony, to report our mishap and ask assistance. Speed being of the utmost consequence, we carried nothing but our blankets and rifles, and a small portion of provisions, and with our snow shoes on our feet, we started on our expedition. K'nama (sharp weapon) had never travelled that way before in winter, but with Indian quickness he remembered its bearing, and his forest lore enabled him to guide our course by the moss upon the trees.

As being the freest from impediment we traveled along the icy margin of the lake, between the restless deep-water waves and the wild rugged land, which at times grew almost sublime in its wintry desolation, jutting out into lofty head-lands, crowned with battlements of snow, rolling back into dreary pine forests, where the grizzly bear and the panther hold divided sway, or breaking into night-black chasms, or vast plains of snow dotted with funeral larches.

With earnest hearts and rapid feet we plodded on, in our anxiety scarce pausing for food or rest; heeding neither the intense cold of the frigid atmosphere, the bitter wind nor yet the sunbeams which flashed and glittered in a thousand brilliant and blinding rays on the frozen snow under our feet.

When night fell, and we could no longer travel, how glad we were to turn to land and throwing off our packs, prepare our night encampment.

In a nook among the rocks and brushwood, secure from outer observation, we built our fire; then hollowed out bowers among the neighboring evergreen copse for shelter, strewing the cut branches beneath to sleep on. Afterwards we cooked and ate our supper; and then, while we sat beside the fire, K'nama beguiled the time by wild tales of war and romantic legends of chivalry and love, and intervals between his recitals glided like a snake into the darkness, to gaze with his keen Indian vision far into the northern sky, to lay his ear to the snow, and listen if all were well on board the sloop, then making the circuit of our little camp, returned to his seat and narration.

For two days more we continued along the ice, rising early and traveling late, fearing nothing but an encounter with Indians, which might obstruct our journey; cutting across bays, and pushing over projecting points in our eagerness to reach our destination. But on the fourth day the universal silence was broken by strange, reverberating sounds, which K'nama pronounced to be the voice of falling waters.

As we drew near the turmoil swelled to a mighty roar, and, falling from between two lofty hills, was one of the most magnificent cataracts I ever beheld; its depth of waters shadowing bluely against the surrounding whiteness as they plunged deep into the lake, casting up volumes of rainbow spray, then rushing onward in soothing waves, swept away the icy bordering of the lake by a space of more than a mile in width.

This was a new and unlooked for difficulty, the only mode of overcoming which was to climb the adjoining heights, and follow the course of the river until it should again be bridged over by ice. The ascent was amid a mass of rocks, rugged with lichens, and slippery with frozen spray and intersected with yawning chasms and when, at length, its difficulties and dangers were surmounted, a long succession of rapids met our disappointed eyes. Even beyond them K'nama could perceive no ice, an indication of yet remoter rapids, and an announcement that our *detour* was but yet in its first quarter.

IRRITATION OF THE NECK OF THE BLADDER. INFLAMMATION OF THE KIDNEYS CATARRH OF THE BLADDER.

STRANGUARY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips. A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it.

DIURETICS

Irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

STROUDSBURG, PA., Jan 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me that there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,
MRS. MARGILL C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANVILLE, Pa., June, 1862.—*Dr. William H. Gregg*—*Dear Sir:*—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

BOSTON CORNERS, N. Y., Dec. 27, 1861.—*Wm. H Gregg & Co.—Gents:*—I freely give you liberty to make use of the following certificate of the value of the Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder.* I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable. For,*" *said he,* "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties.*" About this time she commenced to use the Constitution Water, and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BEUSCHOTEN.

WETHERSFIELD, Conn., March 2, 1863.—*Dr. W. H. Gregg.—Dear Sir:*—Having seen your advertisement of "Constitution Water," recommended for Inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine." I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half of it, to my surprise, I found a great change in my health. I have used two bottles of it and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommended it to be. May the blessing of God ever attend you in your labors of love.

Yours truly, LEONARD S. BIGLOW.

Sarsaparilla Compound,

For the Speedy and Permanent Cure of *Liver Complaints, Scrofula or King's Evil, Eruptions, and all Eruptive Diseases of the Skin, St. Anthony's Fire, Salt Rheum, Pimples, Pustules, Blotches and Boils; Rheumatic and Neuralgic Pains in the Bones, Side and Head; for the various Weaknesses to which Females are liable; Dyspepsia, Debility, Emaciation, Dropsy, and all diseases resulting from or in an impure state of the Blood.*

IT is invaluable to Nervous Sufferers, and a positive cure for Palsy arising from the abuse of Mercury or Lead.

It is a Tonic as well as an Alterative, and a sure protection from attacks that originate in change of climate, season or life.

LIVER COMPLAINTS and their combined symptoms, such as Lumbago, Jaundice, Rheumatism, Bilious Eruptions, &c. When caused by *Scrofula* taint, this compound is a most effectual remedy.

DYSPEPSIA or INDIGESTION, is often caused by Scrofula which deranges the stomach, and renders it unhealthy. Indigestion is not always caused by Scrofula, when it is, this Sarsaparilla Compound is a ready cure.

NEURALGIA, HEADACHE and various disorders of the nervous system frequently arise from a low state of the constitutional health, and are much relieved and often cured by this powerful remedy.

ERYSIPELAS, Boils, Tumors, or Salt Rheum, Ulcers, Sores, &c. Moderate doses three times a day will usually effect the cure of the above complaints, but often requires considerable time.

Price one dollar per bottle. Six bottles for five dollars.

Price 50 Cents and $1.00 per Bottle.

DR. KNIGHTS'
Oriental Hair Restorer.

After a long series of experiments, this article, as it is now offered to the public, is believed to be the most perfect of its kind which science has ever devised. No pains have been spared to produce what has so long been demanded by thousands, who, from sickness or other causes, have become prematurely grey; and others, who, in the sere and yellow leaf of life, would retain, as far as possible, the semblance of youth. DR. KNIGHTS' ORIENTAL HAIR RESTORER, after a few applications, *restores grey or faded hair to its original color*, and is the only preparation of the kind upon which the public can place any reliance. *It has never been known to fail in a single instance*, and is totally unlike the thousand and one so-called Hair Restorers, by which so many have been egregiously deceived.

It is delightfully perfumed, gives the hair a rich and glossy appearance, promotes its luxuriant growth, and will not soil the skin, scalp, or any article of apparel.

Notice to the Public!

In the year 1846, the writer embarked in the Drug Business in the city of Philadelphia, and while thus engaged, made several experiments in regard to the most desirable mode of preparing Fluid Extracts—My efforts being successful—the articles being approved and used by the Medical Faculty—I was desirous of placing them before the public, but hesitated for some time before concluding to resort to newspaper advertising, knowing the prejudice that existed in the minds of many against using advertised *Medicines* or *Nostrums*, but through the advice of friends and those who had used them this objection was overcome.

After 18 years' exertion, commencing in a small way, the popularity of my articles has extended to all parts of the United States, and widely throughout foreign countries—and this in the face of much opposition. Every means has been resorted to by unprincipled dealers since their merit and success have been known—such as advertising larger bottles at less price, censuring all other preparations, and even copying my advertisements—but I am happy to state that out of the many who have resorted to this, none have been successful.

MY OBJECT

In this notice is to make facts known to the public and respectable dealers, believing, after so many years' exertions, that the Druggists will discountenance such proceedings, and that the reputation of my articles may not be damaged by use of inferior or spurious ones.

Knowing that many may read this article who are unacquainted with me, I append a few remarks from those of my native city, and whose names are known in all parts of the world:

"Being personally acquainted with Mr. H. T. Helmbold, it affords me pleasure in stating I have been most favorably impressed with his energy and integrity, and gratified at his success."

WM. WEIGHTMAN,
Firm of Powers & Weightman,
Ninth and Brown Streets, Philadelphia.

[*Evening Bulletin, Philadelphia.*]

"When on a visit to the city of New York a few days since, I was induced to call on our old friend and townsman Mr. H. T. Helmbold, Druggist, 594 Broadway, New York. His store is a *Model*—a perfect *Gem*—the handsomest of any kind we have ever had the pleasure of viewing, and so extensive, being 34 feet front, five stories in height, and over 200 feet deep. It indeed affords us much pleasure to know that he has been so successful, and it is ample evidence of the merits of his articles—as in our whole business experience we have not known of the success of any articles without *Merit*—advertising merely bringing the name before the people."

[*Boston Herald.*]

"We do not like to advertise worthless wares, or articles calculated to deceive our readers; and when we see an advertiser like Mr. Helmbold, whom we have known for years, gradually extend his advertising from year to year until he becomes the largest advertiser in the United States, we are satisfied that the statements in regard to his articles *must be correct.*"

The writer reluctantly inserts the above, and would not do so were he not a stranger to many; and concludes by stating the names of his articles and the diseases for which they have been used by many thousands with complete success.
